

# Big Pig Nuts

## A balanced feed for slow growing or mature pigs

For growing pigs from 65kg or dry sows and boars.

Big Pig Nuts are formulated to meet the nutritional needs of growing pigs from 65kg or 15 weeks of age.

They are also suitable for feeding to dry sows and boars where limited weight gain is required.

NRM Big Pig Nuts are formulated with high quality ingredients to provide balanced protein and energy for slow growing or mature pigs.

Because NRM Big Pig Nuts is a complete feed, the provision of other supplements should be limited.

### Key Benefits & Features

- Contains added vitamins and minerals to support health and immunity.
- Formulated to provide balanced protein and energy for slow growing pigs.
- Premium quality ingredients.

### Feeding Recommendation

<b>Growing Pigs</b>	Feed 2–3 kg per day depending on age, genetics, body weight and environmental temperature.
<b>Dry Sows</b>	Feed 2–2.5kg per sow per day depending on body weight and condition. Take care not to overfeed dry sows as excessive weight gain can result in overfat sows with low feed intake and poor milk production post farrowing.
<b>Boars</b>	Feed approximately 2kg per boar per day depending on age, genetics, body condition and environmental temperature.
<b>Kunekune Pigs</b>	For Dry Sows and Boars: Feed 1 to 1.5kg per day while allowing access to pasture or other fibre. For Growing pigs from 4 months: Feed up to 1kg per pig per day depending on required weight gain and pasture quality and availability.

Ensure access to fresh, clean water at all times.

### Ingredients

Selected from: Grain and grain by-products, various plant proteins, molasses, grass seed meal, minerals, vegetable oils, animal fats, enzymes, amino acids, vitamins and trace minerals, mould inhibitor.

### Storage

Please ensure product is stored in a cool, dry and vermin free environment.
