

Little Pig Tucker | Pellets

A balanced feed for pigs with high nutrient requirements

For rapidly growing young pigs and high producing lactating sows.

NRM Little Pig Tucker is a complete feed suitable for growing pigs from approximately 7 weeks of age until 65kg or approximately 15 weeks of age.

NRM Little Pig Tucker is also ideal for lactating sows from farrowing to weaning.

NRM Little Pig Tucker is formulated with high quality ingredients to provide balanced protein and energy for lean growth in young pigs and milk production in lactating sows.

Because NRM Little Pig Tucker is a complete feed, the provision of other supplements should be limited as this may reduce growth rates.

Key Benefits & Features

- Contains added vitamins and minerals to support health and immunity.
- Formulated to provide balanced protein and energy for lean growth in young pigs and milk production in lactating sows.
- Premium quality ingredients.

Feeding Recommendation

Piglets	Creep feed with NRM Little Pig Tucker while providing sows milk or milk replacer until 7 – 8 weeks of age.
Growing Pigs	Ad-lib for maximum growth. Some feed restriction may be necessary at older ages to minimise fat deposition.
Lactating Sows	Feed from 5kg at farrowing building up to 8 – 9kg per sow per day depending on body weight, litter size and environmental temperature.
Kunekune Pigs	<p>For Lactating Sows: Feed 1.5 to 2kg plus 0.25kg per piglet per day while allowing access to pasture or other fibre.</p> <p>For Growing Pigs from 4 months: Feed up to 0.5kg per pig per day depending on required weight gain and pasture quality and availability.</p>

Ensure access to fresh, clean water at all times.

Ingredients

Selected from: Grain and grain by-products, various plant proteins, molasses, minerals, vegetable oils, animal fats, enzymes, amino acids, vitamins and trace minerals, mould inhibitor.

Storage

Please ensure product is stored in a cool, dry and vermin free environment.
