

Multifeed + Zinc | Nuts

A convenient supplement to help control facial eczema in cattle and sheep

A balanced, versatile feed suitable for beef cattle and sheep.

NRM Multifeed + Zinc Nuts provide improved condition and productivity in ruminant livestock where nutrient demands are high, e.g. pregnancy, lactation, wool growth and liveweight gain.

This versatile product will also assist in sustaining stock during periods of critical feed stress.

Feeding Recommendation

NRM Multifeed + Zinc Nuts are not formulated as a complete feed. Ensure that pasture or silage is always available. Always introduce new feeds gradually.

Key Benefits & Features

- Provides a source of energy to support improved liveweight gain.
- Can be used to improve condition of animals prior to sale or show.

Ingredients

Selected from: Grain and grain by-products, plant proteins, molasses, minerals, vegetable oils, mould inhibitor, zinc oxide, vitamins and trace minerals.

Caution

Do not feed to any animal species other than those stipulated on the label.

Storage

Please ensure product is stored in a cool, dry and vermin free environment.
