

# Equi-Jewel | OUT-PERFORMS OIL Supplement

## Performance and conditioning

Suitable for all horses from six months of age requiring a highly digestible source of fat.

Equi-Jewel is a scientifically formulated high fat, low starch, cool energy supplement with added vitamin E, selenium and calcium.

Specifically designed to nutritionally support the equine athlete by providing a highly palatable form of additional calories and protein to assist in building muscle, topline and maintaining condition.

This unique high fat stabilised rice bran is made from the highest quality ingredients to bring out the best in your horse.

### Uses

- To supplement the diets of performance horses requiring additional calories to maintain performance and condition.
- To increase body condition, muscle, topline and coat condition in show, sale and performance horses.
- To encourage poor doers and picky eaters to 'clean up' their feed.
- As an alternative energy source for horses prone to tying-up.
- A source of natural vitamin E, selenium and calcium to assist with healthy immune function and muscle recovery in performance horses.
- For horses requiring a low carbohydrate energy source.
- For horses at risk of gastric ulceration or colic.
- As an energy source without the risks often associated with feeding grain.

### Feeding Recommendation

Mix required amount of Equi-Jewel each day in combination with current feeding program. As with any changes in your horse's diet, ensure that they are made gradually over 5 - 10 days. Adjust the following feeding rates depending upon weight, condition and level of work.

### Feeding Rates

TYPE OF HORSE	WEIGHT	FEED PER DAY
<b>High Performance:</b> Racing, Eventing, Endurance, Polo, Polocrosse	500kg	500g - 2kg
<b>Performance:</b> Showing, Dressage, Showjumping, Western Pleasure, Halter	500kg	500g - 2kg
<b>Yearling:</b> Thoroughbred or Standardbred Preparation, Show or Halter	400kg	250g - 1.5kg
<b>Weanling</b>	250kg	250g - 500g
<b>Spelling, Retired or Aged</b>	500kg	250g - 1.5kg
<b>Weight Gain</b>	400 - 500kg	500g - 2kg

### Key Benefits & Features

- Slow release high energy supplement, without the 'fizz' from high starch levels found in grain.
- Contains added calcium to balance high phosphorus levels found naturally in commonly fed cereal products such as rice bran, wheat pollard or wheat bran. A balanced Ca:P ratio is essential for optimal skeletal development and athletic performance.
- Added antioxidants, natural Vitamin E and organic selenium to protect cells from oxidative damage.
- A highly digestible and palatable source of fat.
- Stabilised and extruded to lock in the fat content, increase shelf life and prevent oxidation.
- Contains essential fatty acids for healthy skin and a naturally shiny coat.
- The benefit of rice bran oil for conditioning and muscle building.
- The low feeding rate and high digestibility provides an economical calorie supplement.
- Research proven to be a Low Glycaemic Index feed suited to horses at risk of metabolic disorders such as Developmental Orthopaedic Disease, Tying Up and Laminitis.

## Feed To Perform

### Typical Analysis

(approximate on an as fed basis)

Crude Protein (min)	13%
Crude Fat (min)	18%
Crude Fibre (max)	13%
Calcium (min)	2.25%
Vit E	1000IU/kg
Phosphorus (min)	1.5%
Selenium	1 mg/kg
Digestible Energy	18MJ/kg

# Equi-Jewel | OUT-PERFORMS OIL Supplement

## Ingredients

Stabilised rice bran, calcium carbonate, natural vitamin E, selenium and preservative.

## Storage

Please ensure product is stored in a cool, dry and vermin free environment.

## Caution

Do not feed to any animal species other than those stipulated on the label.

Feed To Perform

## NRM Sport & Leisure Horse Feed Range

A range of feeds providing essential ingredients for your horse's well-being.

There is an NRM feed to match the diverse needs of horses through every stage or activity level of their life.

Developed in partnership with Kentucky Equine Research (KER) and proudly manufactured in New Zealand, NRM feeds are unique blends of nutrients and quality products to optimise the health and performance of your horse.

It is important to carefully monitor energy levels to ensure that under or over feeding does not occur.

	UNDER WEIGHT (POOR DOER)	GOOD CONDITION	OVER WEIGHT (GOOD DOER)
<b>Sport Horse</b> light exercise	Coolade and Equi-Jewel	Coolade or Horse & Pony or Low GI Sport	Equine Balancer
<b>Sport Horse</b> moderate exercise	Low GI Sport and Equi-Jewel or Sweetfeed and Equi-Jewel	Low GI Sport or Sweetfeed or Race 13	Equine Balancer
<b>Sport Horse</b> heavy exercise	Low GI Sport and Equi-Jewel or Race 13 and Equi-Jewel	Low GI Sport or Race 13 or Sweetfeed	Equine Balancer and grain
<b>Senior Horse</b>	Coolade and Equi-Jewel	Coolade	Equine Balancer
<b>Starch &amp; Sugar Sensitive</b>	Low GI Sport and Equi-Jewel	Low GI Sport or Equine Balancer and Equi-Jewel	Equine Balancer

## NRM & Kentucky Equine Research

Perfect partners in the specialised field of equine nutrition. Kentucky Equine Research (KER) works closely with an international network of horse feed manufacturers dedicated to the advancement of equine nutrition and exercise physiology to produce healthier, more athletic horses. NRM is the exclusive KER brand alliance partner in New Zealand. Using advice from KER, NRM feeds are formulated to incorporate the very latest advances in equine nutrition.

The combination of NRM's in-depth knowledge of New Zealand horses and conditions and KER's advanced research in the field of equine nutrition makes NRM feeds some of the most scientifically advanced available in the local market. NRM formulate nutritionally balanced, state-of-the-art feeds for horses in all stages of life, and involved in all disciplines.
