

Low GI Sport | NEW IMPROVED Nuts

Low glycaemic nutrition

Suitable for performance horses.

NEW & IMPROVED - with the same proven formulation, Low GI Sport is now in a convenient 'nut' form.

Scientifically formulated without grains, Low GI Sport is a fully fortified, low glycaemic feed that provides slow release, cool energy, while still providing all the essential amino acids, vitamins and minerals required for top performance.

The low starch, high oil and digestible fibre formulation assists the natural digestive process and minimises potential issues such as fizzy behaviour, colic, laminitis and tying up.

Low GI Sport contains Equi-Jewel.

Key Benefits & Features

- Natural Vitamin E: superior bioavailability compared to synthetic sources.
- Ideal for horses that suffer from laminitis and colic as well as those that have behavioural issues associated with high starch diets.
- Added Chromium to aid in stabilising blood sugar levels.
- Nut form aids slower glycaemic response and improved utilisation of nutrients
- Suitable for ground/paddock feeding
- Less waste - nuts are easy to pick up if feed bins are tipped over
- A convenient treat!

Feeding Recommendation

The quantity of Low GI Sport required will depend on the horse's current body condition, growth rate and the quality and quantity of pasture. Always provide at least 1.5% of the horse's bodyweight in good quality forage (pasture, hay, chaff) per day.

Always allow free access to fresh, clean water.

Feeding Rates

BODYWEIGHT	LIGHT WORK	MODERATE WORK	HARD WORK
Up to 400kg	1.5kg per day	2.5kg per day	3.5kg per day
400 - 500kg	2kg per day	3kg per day	4kg per day
500 - 600kg	2.5kg per day	3.5kg per day	4.5kg per day

Nutrient Composition per 1kg of NRM Low GI Sport (on an as fed basis)

Crude Protein	140g	Iodine	2mg
Lysine	5.5g	Cobalt	0.5mg
Methionine	2g	Vit A	14,000IU
Calcium	9g	Vit E	300IU
Phosphorus	6g	Vit D	1,400IU
Magnesium	5g	Vit K	7mg
Sodium	4g	Vit B1 (Thiamine)	12mg
Potassium	12g	Vit B2 (Riboflavin)	18mg
Chloride	8g	Vit B3 (Niacin)	70mg
Chromium	1.5mg	Vit B5 (Pantothenic acid)	30mg
Zinc	175mg	Vit B6 (Pyridoxine)	8mg
Copper	65mg	Vit B7 (Biotin)	0.2mg
Selenium	0.9mg	Vit B9 (Folic acid)	4mg
Manganese	165mg	Vit B12 (Cobalamin)	45mcg
Iron	300mg		

Feed To Perform

Typical Analysis

(approximate on an as fed basis)

Crude Protein	14%
Fat	7%
Fibre (NDF)	35%
Moisture	12%
Digestible Energy	11MJ/kg

Low GI Sport | Nuts

Ingredients

Selected from: Grain by-products, vegetable protein meal, lucerne chaff, beet pulp, molasses, Equi-Jewel, soy oil, minerals and salt, KER vitamin and mineral pre-mix, pellet binder, mould inhibitor, mycotoxin binder, apple flavour.

Storage

Please ensure product is stored in a cool, dry and vermin free environment.

Caution

Do not feed to any animal species other than those stipulated on the label.

NRM Sport & Leisure Horse Feed Range

A range of feeds providing essential ingredients for your horse's well-being.

Developed in partnership with Kentucky Equine Research (KER) and proudly manufactured in New Zealand, NRM feeds are unique blends of nutrients and quality products to optimise the health and performance of your horse.

There is an NRM feed to match the diverse needs of horses through every stage or activity level of their life. It is important to carefully monitor energy levels to ensure that under or over-feeding does not occur.

	UNDER WEIGHT (POOR DOER)	GOOD CONDITION	OVER WEIGHT (GOOD DOER)
Sport Horse light exercise	Coolade and Equi-Jewel	Coolade or Horse & Pony or Low GI Sport	Equine Balancer
Sport Horse moderate exercise	Low GI Sport and Equi-Jewel or Sweetfeed and Equi-Jewel	Low GI Sport or Sweetfeed or Race 13	Equine Balancer
Sport Horse heavy exercise	Low GI Sport and Equi-Jewel or Race 13 and Equi-Jewel	Low GI Sport or Race 13 or Sweetfeed	Equine Balancer and grain
Senior Horse	Coolade and Equi-Jewel	Coolade	Equine Balancer
Starch & Sugar Sensitive	Low GI Sport and Equi-Jewel	Low GI Sport or Equine Balancer and Equi-Jewel	Equine Balancer

NRM & Kentucky Equine Research

Perfect partners in the specialised field of equine nutrition. Kentucky Equine Research (KER) works closely with an international network of horse feed manufacturers dedicated to the advancement of equine nutrition and exercise physiology to produce healthier, more athletic horses. NRM is the exclusive KER brand alliance partner in New Zealand. Using advice from KER, NRM feeds are formulated to incorporate the very latest advances in equine nutrition.

The combination of NRM's in-depth knowledge of New Zealand horses and conditions and KER's advanced research in the field of equine nutrition makes NRM feeds some of the most scientifically advanced available in the local market. NRM formulate nutritionally balanced, state-of-the-art feeds for horses in all stages of life, and involved in all disciplines.
