

Mare Balancer | Nuts

Concentrated source of vitamins and minerals

Suitable for pregnant mares in their last trimester of pregnancy as well as lactating mares.

NRM Mare Balancer provides a concentrated source of vitamins and minerals to mares during their last trimester of pregnancy when demands by the unborn foal are at their greatest. Late pregnant mares grazing on pasture need additional copper, zinc and selenium to meet needs and minimise the occurrence of developmental orthopaedic disease (DOD) in the foal.

Mare Balancer is in the form of a nut allowing paddock feeding. Nuts can simply be poured on to the grass.

Feeding Recommendation

The quantity of Mare Balancer required will depend on the horse's current body condition and the quality and quantity of pasture. Always provide at least 1.5% of the horse's body weight in good quality forage (pasture, hay, chaff) per day. Always allow free access to fresh, clean water.

The pregnant mare in her last trimester of pregnancy should be provided with 500gms of Mare Balancer per day. The nut can be fed loose on the ground or mixed with unfortified grain (based on 500kg body weight).

Key Benefits & Features

- For pregnant mares in their last trimester of pregnancy.
- Concentrate source of key nutrients for optimum health of subsequent foal.
- Ideal for 'good doing mares'.
- Ideal for mares grazing good quality pasture that do not require additional calories.
- Contains natural vitamin E which has superior bioavailability compared to synthetic sources.

Feeding Rates

LACTATING MARES	PER DAY
First 60 days lactation	0.5kg
Late Lactation	0.5kg
Dry mare	0.3kg

Nutrient Composition per 1kg of NRM Mare Balancer (as fed basis)

Crude Protein	120g	Iodine	10mg
Lysine	5g	Cobalt	2mg
Methionine	2g	Vit A	44,000IU
Calcium	30g	Vit E	1,000IU
Phosphorus	7.5g	Vit D	11,200IU
Magnesium	3.5g	Vit K	8mg
Sodium	4g	Vit B1 (Thiamine)	55mg
Potassium	10g	Vit B2 (Riboflavin)	35mg
Chloride	7g	Vit B3 (Niacin)	80mg
Zinc	850mg	Vit B5 (Pantothenic acid)	23mg
Copper	330mg	Vit B6 (Pyridoxine)	14mg
Selenium	4mg	Vit B7 (Biotin)	96mcg
Manganese	480mg	Vit B9 (Folic acid)	15mg
Iron	670mg

Typical Analysis

(approximate on an as fed basis)

Crude Protein 12%

Fat 3%

Moisture 12%

Digestible Energy 10MJ/kg

Mare Balancer | Nuts

Ingredients

Selected from: Grain and grain by-products, vegetable protein meal, molasses, soy oil, minerals and salts, KER vitamin and mineral pre-mix, mould inhibitor, apple flavour.

Storage

Please ensure product is stored in a cool, dry and vermin free environment.

Caution

Do not feed to any animal species other than those stipulated on the label.

NRM Stud & Breeding Horse Feed Range

A range of feeds providing essential ingredients for your horse's well-being.

Developed in partnership with Kentucky Equine Research (KER) and proudly manufactured in New Zealand, NRM feeds are unique blends of nutrients and quality products to optimise the health and performance of your horse.

There is an NRM feed to match the diverse needs of horses through every stage or activity level of their life. It is important to carefully monitor energy levels to ensure that under or over feeding does not occur.

Feed To Perform

NRM & Kentucky Equine Research

Perfect partners in the specialised field of equine nutrition. Kentucky Equine Research (KER) works closely with an international network of horse feed manufacturers dedicated to the advancement of equine nutrition and exercise physiology to produce healthier, more athletic horses. NRM is the exclusive KER brand alliance partner in New Zealand. Using advice from KER, NRM feeds are formulated to incorporate the very latest advances in equine nutrition.

The combination of NRM's in-depth knowledge of New Zealand horses and conditions and KER's advanced research in the field of equine nutrition makes NRM feeds some of the most scientifically advanced available in the local market. NRM formulate nutritionally balanced, state-of-the-art feeds for horses in all stages of life, and involved in all disciplines.
