

Race 13 | Textured Feed

The world's leading racing feed

Suitable for race horses and sport horses in moderate to heavy work.

Used world-wide, Race 13 is a premium textured feed containing steam flaked grains to enhance digestibility and maximise energy production. It also contains the super fibre sugar beet pulp as well as vegetable oil, both great alternative energy sources. Race 13's fully fortified formulation provides the hard working horse with all its essential nutrients in a performance proven feed.

Key Benefits & Features

- Includes the super fibre sugar beet, a 'horse friendly' alternative energy source.
- Natural vitamin E which has superior bioavailability compared to synthetic sources.
- Yeast culture to increase nutrient availability and maximise hindgut function.
- Ideal for horses undertaking hard work including race horses, eventers and hunters.

Feeding Recommendation

The quantity of Race 13 required will depend on the horse's current body condition, growth rate and the quality and quantity of pasture. Always provide at least 1.5% of the horse's body weight in good quality forage (pasture, hay, chaff) per day. Always allow free access to fresh, clean water.

Feeding Rates
