

Virkon®S

Premium broad spectrum virucidal disinfectant.

The greatest disease threat to a companion animal comes from another animal, either through direct contact or through contaminated surfaces, bedding, feeding bowls, drinkers or carried by people from animal to animal.

Boarding kennels and catteries insist that animals have been vaccinated and medication is available for many animal diseases; but neither gives complete protection against disease causing organisms. The risks are increased by bringing numbers of animals together away from their home environment and by the stress this causes. Using Virkon®S broad spectrum virucidal disinfectant to clean and disinfect surfaces and equipment is essential to help prevent the spread of disease.

Unique Disinfectant Formulation

Virkon®S formulation is unique. No other disinfectant has the same powerful composition or extensive portfolio of performance and safety testing data. In terms of efficacy, Virkon®S has been independently proven highly effective against:

- 100+ strains of virus in 22 viral families
- 400+ strains of bacteria
- 60+ strains of fungi

This list of proven efficacy includes Canine Parvovirus, Feline Leukaemia Virus, Salmonella, E.coli and animal origin MRSA.

Superior Operator Safety Profile

Extensive investment has been made assessing the safety of Virkon®S to users and animals. The assessment demonstrates that Virkon®S is not corrosive to skin and does not cause sensitisation. A typical in-use dilution of (1%) has been shown to be non-irritating to skin and eyes and is not a sensitising agent.

Virkon®S is Available in...

- 50g sachet - makes 5 litres
- 1kg - makes 100 litres
- 2.5kg - makes 250 litres
- 5kg - makes 500 litres

Wide Range of Disinfection Uses

Virkon®S is the disinfectant of choice for:

- Surfaces
- Equipment
- Vehicles
- Aerial disinfection
- Water delivery systems

Features and Benefits

- Powerful, proven performance against over 500 strains of viruses, bacteria and fungi including including Canine Parvovirus, Feline Leukaemia virus and animal original MRSA.
- A highly convenient, fast-acting, disinfection package ideal for cleaning surfaces, equipment and utensils in one easy step.
- Kills pathogens ten times faster than the nearest competitor, even at low temperatures and in the presence of organic challenge.
- Superior operator safety.
- Easy to prepare and use. Apply using a mop, cloth, sponge or spray.
- Can be misted in the presence of animals.
- Formulated to degrade naturally within the environment.
- UK DEFRA Approved.

APPLICATION AND USE GUIDE FOR COMPANION ANIMALS.

Virkon®S is ideal for one stop cleaning and disinfection of all surfaces, equipment, instruments, utensils and cages, within or associated with veterinary medical hospitals, infectious disease wards, quarantine areas, humane society facilities, laboratory animal quarters, grooming and boarding facilities, kennels, catteries and animal transportation vehicles.

Hard Surface Disinfection

Dilution Rate: 1:100

Apply disinfectant solution using a floor mop, cloth, sponge or spray applicator (e.g. trigger bottle or knapsack sprayer) to all hard surfaces including benches, floors, walls and cages.

Remove gross filth and heavy soil deposits before application of Virkon®S solution.

Equipment Disinfection (non medical)

Dilution Rate: 1:100

Equipment, including feed and water bowls, leads and toys, can either be submerged and washed in disinfectant solution or sprayed and then wiped clean with a cloth or sponge. Rinse disinfected equipment with clean water after.

Temporary Confinement of Animals

Dilution Rate: 1:100

Clean and disinfect surfaces with Virkon®S solution at sites such as barns, sheds, stables, pens, cages, and associated access alleys or walkways. Virkon®S may also be used to clean and disinfect equipment related to the maintenance of animals found at fairs, exhibitions, animal auction yards, animal show/boarding facilities, or other similar facilities designed for the temporary housing of animals.

Emergency Disease Control (animal health)

Dilution Rate: 1:100

Clean and disinfect with Virkon®S solution sites and equipment at agricultural, airport, port, rail, quarantine, slaughter and other facilities where disease organisms might have been present. Treated objects include but are not limited to vehicles, farm equipment, slaughter machinery and shipping equipment (pallets, bins, containers). Spray Virkon®S solution to disinfect and clean walls, ceilings, floors, decks, container surfaces, vehicles, wheels, footwear (such as rubber boots), livestock equipment, utensils and instruments.

IMPORTANT: Do not immerse metal objects in Virkon®S for long periods. 10 minutes is the maximum contact time.

VIRKON®S PROVEN EFFICACY AGAINST ANIMAL PATHOGENS.

BACTERIA

Bacillus cereus
Bordetella avium
Bordetella bronchiseptica (Kennel Cough)
Campylobacter jejuni
Clostridium perfringens
Dermatophilus congolensis
Escherichia coli
Helicobacter pylori
Klebsiella pneumoniae
Listeria monocytogenes
Mycoplasma gallisepticum
Mycoplasma mycoides
Pasteurella multocida
Pseudomonas aeruginosa
Pseudomonas mallei (Glanders)
Pseudomonas vulgaris
Salmonella enterica
Salmonella typhimurium
Shigella sonnei
Staphylococcus aureus
Staphylococcus epidermidis
Streptococcus pyogenes
Streptococcus suis
Treponema hyodysenteriae

VIRUSES

Adenovirus Pneumonia
Avian Influenza Virus
Canine Adenovirus (Canine Hepatitis)
Canine Coronavirus
Canine Herpes Virus
Canine Parainfluenza Virus
Canine Parvovirus
Distemper Virus
Feline Calicivirus
Feline Coronavirus
Feline Herpes Virus
Feline Leukaemia Virus
Feline Panleukopenia Virus
Feline Immunodeficiency Virus
Feline Infectious Peritonitis Virus
Feline Parvovirus
Feline Rhinotracheitis Virus
Foot and Mouth Disease Virus
Infectious Bronchitis Virus
Infectious Bursal Disease Virus
Infectious Canine Hepatitis Virus
Leptospira Canicola Virus
Mouse Parvovirus
Newcastle Disease Virus

Rotaviral Diarrhea Virus
Simian Virus (SV40 Virus)
Transmissible Gastroenteritis Virus
Vesicular Stomatitis Virus

FUNGI

Aspergillus fumigatus
Fusarium moniliforme
Microsporium canis
Trichophyton mentagrophytes
Trichophyton spp. - Ringworm
Trichophyton spp. - Mud Fever

Virkon®S is highly effective in protecting a wide range of other animals and associated pathogens including horses, cattle, sheep and commercial pig and poultry operations.
