

Low GI Sport® Nuts

Low glycemic nutrition

Suitable for all performance horses.

NRM Low GI Sport® is scientifically formulated in conjunction with the experts in equine nutrition, Kentucky Equine Research, as a low glycemic feed that provides a slow release of cool energy to the horse. Low GI Sport® is formulated without grains to ensure a low starch level, which assists the natural digestive process and minimises the potential issues associated with high starch grain diets, such as fizzy behaviour, colic, laminitis and tying up. In order to create a feed that is low on the glycemic index, we sourced energy from premium fats (including Equi-Jewel® and high quality vegetable oil) and digestible fibres (including beet pulp and soy hulls).

Key Benefits and Features

- Ideal for horses that suffer from laminitis and colic as well as those that have behavioural issues associated with high starch diets.
- Fortified with Equi-Jewel®, the ultimate high fat, conditioning supplement.
- Contains super fibres, beet pulp and soy hulls for slow release energy.
- Formulated to provide all the protein, vitamins and minerals for performance horses including natural vitamin E, which has superior bioavailability compared to synthetic sources.
- Added Chromium to aid in stabilising blood sugar levels.
- Nut form aids slower glycemic response and improved utilisation of nutrients.
- Suitable for ground/paddock feeding.
- Less waste - nuts are easy to pick up if feed bins are tipped over.
- A convenient treat!

HIGH FIBRE

Typical analysis (approximate on an as fed basis)

Crude Protein	14%
Fat	7%
Fibre (NDF)	35%
Moisture	12%
Digestible Energy	11MJ/kg

Nutrient Composition per 1kg of NRM Low GI Sport (on an as fed basis)

Crude Protein	140g	Zinc	175mg	Vit K	7mg
Lysine	5.5g	Copper	65mg	Vit B1 (Thiamine)	12mg
Methionine	2g	Selenium	0.9mg	Vit B2 (Riboflavin)	18mg
Calcium	9g	Manganese	165mg	Vit B3 (Niacin)	70mg
Phosphorus	6g	Iron	300mg	Vit B5 (Pantothenic acid)	30mg
Magnesium	5g	Iodine	2mg	Vit B6 (Pyridoxine)	8mg
Sodium	4g	Cobalt	0.5mg	Vit B7 (Biotin)	200mg
Potassium	12g	Vit A	14,000IU	Vit B9 (Folic acid)	4mg
Chloride	8g	Vit E	300IU	Vit B12 (Cobalamin)	45mcg
Chromium	1.5mg	Vit D	1,400IU		

Low GI Sport® Nuts

Low glycaemic nutrition

Feeding rates

WEIGHT OF HORSE	400KG	500KG	600KG
Light work	1-2kg	2-3kg	3-4kg
Moderate work	2-3kg	3-4kg	4-5kg
Hard work	3-4kg	4-5kg	5-6kg

Feeding Recommendation

NRM Low GI Sport® can be fed alone or combined with a suitable fibre source. Adjust intake according to needs based on breed, body weight, body condition, work load and available forage. Always provide at least 1.5% of the horse's body weight in good quality forage (pasture, hay, chaff, fibre products) per day. Always allow free access to fresh, clean water.

Ingredients selected from

Grain by-products, vegetable protein meal, lucerne chaff, beet pulp, soy hulls, molasses, Equi-Jewel, vegetable oil, minerals and salt, KER vitamin and mineral pre-mix, pellet binder, mould inhibitor, mycotoxin binder, apple flavour.

Storage

Please ensure product is stored in a cool, dry and vermin free environment.

Caution: Do not feed to any animal species other than those stipulated on the label.

NRM and Kentucky Equine Research

Kentucky Equine Research (KER) works closely with an international network of horse feed manufacturers dedicated to the advancement of equine nutrition and exercise physiology to produce healthier, more athletic horses. Using advice from KER, NRM feeds are formulated to incorporate the very latest advances in equine nutrition. The combination of NRM's long-standing role as a leader in the New Zealand feed industry and KER's technical expertise in the field of equine nutrition makes NRM feeds some of the most scientifically advanced available in the local market.

NRM Sport & Leisure Horse Feed Range

A range of feeds providing essential ingredients for your horse's well-being.

Developed in partnership with Kentucky Equine Research (KER) and proudly manufactured in New Zealand, NRM feeds are unique blends of nutrients and quality products to optimise the health and performance of your horse.

There is an NRM feed to match the diverse needs of horses through every stage or activity level of their life. It is important to carefully monitor energy levels to ensure that under or over feeding does not occur.

	UNDER WEIGHT (POOR DOER)	GOOD CONDITION	OVER WEIGHT (GOOD DOER)
Sport Horse – light exercise	Coolade and Equi-Jewel, Horse & Pony and Equi-Jewel or Low GI Sport and Equi-Jewel	Coolade, Horse and Pony or Low GI Sport	Equine Balancer
Sport Horse – moderate exercise	Low GI Sport and Equi-Jewel or Sweetfeed and Equi-Jewel	Low GI Sport or Sweetfeed	Equine Balancer
Sport Horse – heavy exercise	Low GI Sport and Equi-Jewel or Sweetfeed and Equi-Jewel	Low GI Sport or Sweetfeed	Equine Balancer and grain
