

Assett®

Textured Feed

Suitable for horses from 6 months of age.

NRM Assett® is a palatable and highly nutritious feed, balanced to meet the increased demands of developing horses and young horses starting work. Also contains KER BMC™ (Buffered Mineral Complex), Vitamin C and organic trace minerals from Kentucky Equine Research.

KEY BENEFITS AND FEATURES

- Reduced grain, high fibre and fat formulation including KER Equi-Jewel® to supply low glycaemic energy.
- Contains high quality protein to provide essential amino acids vital for sound growth and development.
- Fortified with all the vitamins and minerals required for young horses including natural vitamin E, which has superior bioavailability compared to synthetic sources.
- Research shows KER BMC™ serves as a potent buffer in both the stomach and large intestine and increases bone density in young working horses and weanlings.

If NRM Assett® is not the best feeding solution for your horse, we recommend NRM Evolve® or NRM Prepare as suitable alternatives.

FEEDING RECOMMENDATIONS

NRM Assett® can be fed alone or combined with a suitable fibre source. The following recommendations are for horses with a mature body weight of 500kg. Adjust intake according to needs based on breed, body weight, body condition, growth rate and available forage.

Always provide at least 1.5% of the horse's body weight in good quality forage (pasture, hay, chaff, fibre products) per day. Always allow free access to fresh clean water.

INGREDIENTS

Fibre pellet, steam flaked barley, steam flaked maize, steam flaked peas, beet pulp, KER Equi-Jewel®, grain and grain co-products, vegetable protein meal, molasses, cold pressed canola oil, KER vitamin and mineral premix including Zinpro organic trace minerals, amino acids, minerals and salts, KER BMC™, mould inhibitor, apple flavour.

STORAGE

Ensure product is stored in a cool, dry and vermin free environment out of direct sunlight.

RECYCLE ME

NRM bags with the Recycle Me logo use 25% less plastic per bag compared to previous versions, giving them a lower carbon footprint and enable their recyclability through Agrecovery.
