

# Big Pig Nuts™

A balanced feed for slow growing or mature pigs

NRM Big Pig Nuts™ have been formulated to meet the nutritional needs of growing pigs from 65kg or 15 weeks of age. It is suitable for feeding to dry sows and boars where limited weight gain is required.

NRM Big Pig Nuts™ are formulated with high quality ingredients to provide balanced protein and energy for slow growing or mature pigs.

## KEY BENEFITS AND FEATURES

- Contains added vitamins and minerals to support health and immunity.
- Formulated to provide balanced protein and energy for slow growing pigs.
- Premium quality ingredients.
- NRM Little Pig Tucker Pellets are recommended for rapidly growing young pigs and high producing lactating sows.

## FEEDING RECOMMENDATIONS

### Growing pigs

Feed 2 – 3kg per day depending on age, genetics, body weight and environmental temperature.

### Dry sows

Feed 2 – 2.5kg per sow per day depending on body weight and condition. Take care not to overfeed dry sows, as excessive weight gain can result in overfat sows with low feed intake and poor milk production post-farrowing.

### Boars

Feed approximately 2kg per boar per day depending on age, genetics, body condition and environmental temperature.

### Kunekune Pigs

For growing pigs from 4 months

Feed up to 1kg per pig per day depending on required weight gain and pasture quality and availability.

### For dry sows and boars

Feed 1 to 1.5kg per day while allowing access to pasture or other fibre.

Ensure continual access at all times to reachable fresh, clean drinking water.

## TYPICAL ANALYSIS

Nutrient	As Fed Basis	Dry Matter Basis
Dry Matter %	87	100
Crude Protein %	14	16

Variations in nutritional values may occur due to natural variability in feed ingredients. Our FeedSafe NZ certified sites have well developed systems to minimise any variation from the typical levels shown.

# Big Pig Nuts™

## INGREDIENTS SELECTED FROM

Grain and grain by-products, plant proteins, oilseed meal by-products, vegetable oils, enzymes, amino acids, limestone, mono or di-calcium phosphate, salt, mould inhibitor, vitamins, trace minerals and organic acids.

Product does not contain any Restricted Animal Material.  
Product may contain or be sourced from genetically modified source crops.

## STORAGE

Store in a cool, dry and vermin free environment out of direct sunlight.  
Do not feed Nuts which have become wet and moulded.

## RECYCLE ME

NRM bags with the Recycle Me logo use 25% less plastic per bag compared to previous versions, giving them a lower carbon footprint and enable their recyclability through Agrecovery. NRM bags are made from woven polypropylene.
