

GrowUp[®] 20%

20% Protein Pellets

Premium high protein starter feed for young calves and goat kids.

NRM GrowUp[®] 20% is a premium quality, high protein, balanced supplementary feed for calves and kid goats designed to provide the energy and protein required to support rumen development, lean muscle and skeletal growth. NRM GrowUp[®] 20% contains Bovatec[®] 20CC to aid in the prevention of coccidiosis and added flavours to help encourage early intake and minimise developmental checks.

KEY BENEFITS AND FEATURES

- High 20% protein feed.
- Balanced energy/protein for rumen and calf development.
- Vitamin and mineral package for optimal health and development.
- Moozlee flavourants for consistent palatability.
- Bovatec[®] 20CC to aid in the prevention of coccidiosis.
- Formulated without PKE, may contain traces of PKE used in the feed mill.

FEEDING RECOMMENDATIONS

Feed along with whole milk or a high-quality calf milk replacer. NRM GrowUp[®] 20% should be introduced gradually in the first week of life to help form habits early. Intakes may be limited when feeding higher volumes of milk. Additional coccidiostat may be required in the milk until pellet intake is sufficient to aid in the control of coccidiosis.

Wean calves off milk gradually at a minimum 6 weeks of age and 65-80kg when consuming between 1 to 1.5kg NRM calf feed depending on the calf size and breed. Continue to feed NRM calf feed at 1-1.5kg/head/day for 1-2 months after weaning from milk.

NRM GrowUp[®] 20% should be offered fresh each day. If fed in troughs, clean these out frequently.

Do not feed to animals other than those stipulated on this label without consulting a nutritionist.

Ensure calves have unrestricted access to clean, fresh drinking water and restricted access to long fibre such as hay or straw.

PREMIUM FEED

PKE FREE

CONTAINS ESSENTIAL OILS

TYPICAL ANALYSIS (APPROXIMATE ON A DRY MATTER BASIS)

Dry Matter %	87
Metabolisable Energy* (MJ ME/kg)	12.5
Crude Protein %	20

*Metabolisable Energy (ME) value is calculated by a registered laboratory from an equation and is not an actual measurement and is intended only as a guide to predict the energy content of the feed.

Variations in nutritional values may occur due to natural variability in feed ingredients. Our FeedSafe NZ certified sites have well developed systems to minimise any variation from the typical levels shown.

GrowUp® 20%

20% Protein Pellets

INGREDIENTS SELECTED FROM

Grain and grain by-products, oilseed meals and by-products, molasses, minerals (including limestone, dicalcium phosphate, salt) vegetable oil, essential oils, trace minerals, vitamins A, D₃ and E, range of B vitamins including Biotin, mould inhibitor, Bovatec® 20CC, flavour.

Contains added copper and selenium. NRM GrowUp® 20% does not contain any restricted animal protein. Do not use at the same time as other selenised fertiliser, prill or product (apart from milk powder) without consulting with a nutritionist or veterinarian.

STORAGE

Store in a cool, dry and vermin free environment out of direct sunlight. Remove pallet wrap when in final location to prevent sweating.

RECYCLE ME

Any bags with the Recycle Me Logo are made from woven polypropylene that:

- Provide excellent protection against moisture and pests compared to paper alternatives
 - Are strong enough to be transported and used on farms
 - We have lowered the carbon footprint than our previous bags by using 25% less plastic per bag.
 - Are recyclable through Agrecovery
- Scan QR below for more information.

WARNING STATEMENTS

**KEEP OUT OF THE REACH OF CHILDREN
FOR ANIMAL TREATMENT ONLY
READ THE LABEL BEFORE USE**

NRM GrowUp® 20% calf feed with 500g Bovatec® 20CC/tonne

ACTIVE INGREDIENT: Lasalocid sodium 100mg per kilogram

CONTAINS: 500g Bovatec® 20CC per tonne, which is registered pursuant to the ACVM Act 1997, No. A009679.
See www.foodsafety.govt.nz for registration conditions.

DIRECTIONS FOR USE: This product must not be used for growth promotion in ruminants intended for human consumption. By law the user must take due care, obtaining expert advice if necessary to avoid unnecessary pain and distress when using the product other than as directed on the label.

INDICATIONS: Delivers 100mg Lasalocid sodium per kg as 500g Bovatec® 20CC/ tonne, as an aid in the control of coccidiosis caused by Eimeria species in cattle and goats. Ensure young animals have access to NRM GrowUp® 20% calf feed at least 2-3 weeks prior to weaning as coccidial challenge is most likely to occur in the first eight weeks after weaning.

DOSE RATE: For coccidiosis control, minimum dose rate of 5mg Bovatec® 20CC/kg live weight (1mg Lasalocid sodium/ kg live weight) is required per day, (0.5kg of NRM GrowUp® 20% per 50kg calf per day).

Up to twice this dose rate (2mg Lasalocid sodium per kilogram liveweight) is indicated where severe coccidial challenge is expected or a wide range of individual live weights occur within a group.

CONTRAINDICATIONS: Care must be exercised when feeding concurrently with other antimicrobials. Do not feed with other ionophores, e.g., monensin capsules, liquid, or pre-mix. Do not exceed the recommended dose rates.

CAUTION: Do not allow dogs, horses (or other equids), alpacas (or other camelids) access to feeds containing Bovatec® 20CC, as ingestion by these species may be fatal.

Do not feed to milking goats.

WITHHOLDING PERIODS: It is an offence for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.

Cattle:

- Meat: Nil
- Milk: Nil
- Not for use in bobby calves.

Goats:

- Meat: Nil
- Milk: If inadvertently fed to milking goats, milk intended for human consumption must be discarded during treatment and for not less than 35 days following the last treatment.

DISPOSAL: Avoid any contamination of any water supply with this feed.

DO NOT FEED TO ANIMALS OTHER THAN THOSE STIPULATED ON THIS LABEL

MARKETED AND DISTRIBUTED BY NRM
