

Mixed Grain

New Zealand grown grains and legumes formulated from non-GMO* ingredients

Whole wheat with steam flaked maize, barley and peas.

KEY BENEFITS AND FEATURES

NRM Mixed Grain contains:

- Natural New Zealand quality cereal grains and peas for good digestibility.
- No GM ingredients or PKE, for those wanting a GM and PKE free^ product.
- All the nutritional benefits of barley, maize and peas which have been heat treated prior to rolling, and which can improve keeping quality by killing some spoilage organisms on the seed coat that survive dry processing.
- Whole wheat, which is low in fibre, easily digestible, and contains starch to provide a concentrated source of digestible energy in support of productivity.

FEEDING RECOMMENDATIONS

Contains whole wheat which is ideal for feeding to all classes of birds but particularly waterfowl.

Contains steam flaked maize, barley and peas to create more evenly sized particles than dry rolling which may improve intake and performance.

Processed to ensure good digestibility, utilisation and appeal.

Contains only NZ grown, non-GMO grains and legumes with a proven mould inhibitor to preserve freshness.

NRM Mixed Grain is not a complete feed and should only be offered as a supplement to other feeds as part of a complete diet that is suitable for the type of bird being fed relative to its stage of production.

Grains are low in some essential major minerals, trace elements and vitamins so users should ensure the complete diet is balanced.

Always introduce new feeds gradually.

Discard any feed which becomes dusty or mouldy due to water damage during transport or storage.

Ensure that fresh, clean drinking water is always available.

CAUTION: Do not feed to any animal species other than those stipulated on the label.

NZ MADE

VERSATILE

NON-GMO

TYPICAL FEEDING RATES (GRAMS/HEAD/DAY)

POULTRY	Adult	Up to 50g per day
<hr/>		

TYPICAL ANALYSIS (APPROXIMATE ON AN AS FED BASIS)

Crude Protein %	11
Dry Matter %	85

Variations in nutritional values may occur due to natural variability in feed ingredients. Our FeedSafe NZ certified sites have well developed systems to minimise any variation from the typical levels shown.

Mixed Grain

INGREDIENTS SELECTED FROM

Wheat, maize, barley, peas, Mould Inhibitor.

Product does not contain any Restricted Animal Material.

^Product has been formulated without PKE, may contain traces of PKE used in the feed mill.

*Formulated from non-genetically modified crops and by-products. May contain traces of GM material used in the feed mill.

STORAGE

Store in a cool, dry and vermin free environment out of direct sunlight.

RECYCLE ME

NRM bags with the Recycle Me logo use 25% less plastic per bag have a lower carbon footprint compared to previous versions, they are made from woven polypropylene and recyclable through Agrecovery.
