

MultiFeed

Nuts

A convenient multi-species feed

NRM MultiFeed Nuts are suitable for a wide range of ruminant animals including beef cattle, sheep, goats and deer.

NRM MultiFeed Nuts supports improved condition and productivity in ruminant livestock where nutrient demands are high, e.g. pregnancy, lactation, wool growth and liveweight gain. This versatile product will also assist in sustaining stock during periods of critical feed stress. It contains a proven rumen buffer to help rumen pH.

KEY BENEFITS AND FEATURES

NRM MultiFeed Nuts contain:

- Energy to support improved liveweight gain when forage is limited in quality or quantity
- Can be used to improve the condition of stock prior to sale or show, during an extended drought or cold period or when needs increase e.g. when growing or lactating.
- Mineral, vitamins and trace minerals help support animal health
- Easy to use palatable nut form which can be used as a treat, to aid regularly inspecting or moving stock with little waste when fed on the ground.
- Added proven rumen buffer to help rumen pH.

WEIGHT GAIN

FEEDING RECOMMENDATIONS

NRM MultiFeed Nuts are not formulated as a complete feed. Ensure that long fibre is always available to support rumination in the form of fresh pasture or conserved such as silage or hay.

NRM MultiFeed Nuts are larger than standard pellets to reduce waste when fed on the ground.

Ensure equal access by all stock to prevent gorging more than the allocated amount.

Always introduce new feeds gradually (over 7-14 days) and ensure access to clean drinking water.

Adequate water intake can be especially helpful for castrated males, free access to salt can help drive water intake.

Product also available as 'NRM MultiFeed + Zinc Nuts', with registered zinc to aid in the control of facial eczema in sheep and cattle.

SPECIALIST NUTRITIONAL PRODUCTS ARE RECOMMENDED FOR OTHER GRAZING HERBIVORES INCLUDING EQUINES, CAMELIDS AND RABBITS.

FEEDING RATES

| Animal Species | Animal Type | Feeding Rate in grams, (g)/head/day |
|----------------|-------------|-------------------------------------|
| Sheep | Adult | Up to 150g daily |
| | Fawn | Up to 250g daily |
| Cattle | Adult | Up to 3kg daily |
| | Kid | Up to 200g daily |
| Goats | Adult | Up to 350g daily |
