

# Muscle Relieve

## Textured Feed

A specialty high performance feed for horses requiring a low starch diet

NRM Muscle Relieve is a complete, low starch textured feed formulated for horses at risk of tying up and those with conditions that require low starch diets. Studies have shown that replacing traditional grain-based diets with concentrates that contain decreased starch and high levels of fat and fermentable fibre, resulted in significant improvement in horses with Recurrent Exertional Rhabdomyolysis (RER). NRM Muscle Relieve contains a formulation proven by research to provide optimum nutrition to support horses with RER, PSSM and other conditions requiring low grain diets, such as nervous dispositions or digestive issues such as gastric ulcers.

- Optimum low starch, high fat and fibre formulation that research shows horses with RER require
- Highly digestible super fibres including beet pulp for supporting hindgut health
- High quality cold pressed canola oil and Equi-Jewel®, for superior fat sources to assist nervous horses in maintaining body weight
- Increased levels of natural Vitamin E for superior antioxidant protection
- Organic yeast for optimum digestion.

### FEEDING RECOMMENDATIONS

NRM Muscle Relieve can be fed alone or combined with a suitable fibre source. Adjust intake according to needs based on breed, body weight, body condition, work load and available forage. If NRM Muscle Relieve is not the best feeding solution for your horse, we recommend NRM Low GI Sport® as an appropriate alternative. Always provide at least 1.5% of the horse's body weight in good quality forage (pasture, hay, chaff, fibre products) per day. Always allow free access to fresh clean water.

Weight of horse	400kg	500kg	600kg
Light Work	2 – 3kg	3 – 4kg	4 – 5kg
Moderate Work	3 – 4kg	4 – 5kg	5 – 6kg
Heavy Work	4 – 5kg	5 – 6kg	6 – 7kg

### INGREDIENTS

Fibre Pellet, Balancer Pellet, Beet Pulp Flakes, KER Equi-Jewel®, Cold Pressed Canola Oil, Sunflower Seeds, Flaxseed Flake, Steam-Flaked Barley, Molasses, KER Vitamin and Mineral Premix containing organic Zinpro Performance Minerals®, Salts, Natural Vitamin E, Organic Yeast Culture, Mycofix Plus 5.E Mycotoxin Binder<sup>^</sup> (ACVM registration no. A011328)

<sup>^</sup>This product may reduce the effectiveness of other oral medicinal products given concurrently with feed containing this additive.

### STORAGE

Ensure product is stored in a cool, dry and vermin free environment.

### RECYCLE ME

NRM bags with the Recycle Me logo use 25% less plastic per bag compared to previous versions, giving them a lower carbon footprint and enable their recyclability through Agrecovery.
